Gary,

How is access to the site gained since you have secured the Wayland St gate? Has the TCEQ's lock on the Griggs Rd gate been replaced?

The EPA has NOT taken over the site and you have authority to let IKON in. Also, the plastic tarp is deteriorating. Can you ask Greg to replace it?

I do not control the access to the site since the EPA/TCEQ implemented activities at the site. Therefore, make sure that you give the TCEQ and EPA notification prior to mobilization.

Mickey,

I am waiting on an air mover to become available. I have called 3 of my subcontractors and the earliest I can schedule them is next week. I am on their waiting list. I have all of the landfill approvals in hand and we are standing by. I know it is a priority and we certainly want to get it done.

I am trying to see if we can get one for Saturday.

I will let you know as soon as I get equipment lined up.

Greg Blomquist

What is your schedule to implement the removal/disposal activities at CES?
